FITWOOD® FOR KIDS

LUOTO II climbing arch

LUOTO II is the new version of our beloved multifunctional climbing arch. Known from its versatility, LUOTO is designed to foster active play and promote the development of gross motor skills and coordination. In addition to climbing, the arch can be used, for example, as a rocker, toy storage, and side table, offering children numerous ways to learn new things and explore their environment.

Because our customers' opinions truly matter to us, we took the time to gather all the feedback we've received over the years and improved the product based on those wishes. Taking this feedback into account, we have made small changes to the LUOTO product family to enhance the user experience, making it even more functional, safer, and, above all, better suited to meet our dear customers' needs in the best possible way.

LUOTO II climbing arch

- W 100 cm x D 60 cm x H 54 cm
- Weight 11,60 kg
- Weight limit 60 kg
