General safety warnings for all products

By using FitWood's products, you acknowledge and agree to obey the following instructions and warnings. Your continued use signifies your acceptance and understanding of these guidelines. Please read carefully to ensure the safety and longevity of the products.

- Always follow the instruction manual before assembling or using any FitWood product.
- Ensure routinely that all parts of the products are securely tightened and check for wear, damage, or defects prior to use.
- Use products strictly for their intended purpose and in a spacious environment.
- Always ensure there is ample space around the products to prevent collisions or accidents, and ensure safe movement.
- Keep products away from fire and other sources of strong heat, such as electric bar fires, gas fires, etc.
- Store products in a cool, dry place, avoiding excessive moisture or outdoor elements (excluding outdoor products). Avoid contact with water as it may damage the wood.
- Do not consume, chew, eat, bite, lick, tear, or attempt to disassemble any part of the products.
- Ensure your hands are clean, dry, and free from oils or lotions. Always wear suitable attire and footwear, such as anti-slip socks or shoes.
- Avoid inserting fingers, toes, or head into any openings or underneath the products to prevent entrapment.
- Always supervise children during use and teach them the correct way to use the products. It is important to explain, particularly to young children, the intended use of the products, what potential risks they entail, and how to prevent them. As with all activities, the parent or other supervising adult bears responsibility for any injuries or damage to property. FitWood is not liable for any property damage, bodily injury, or other harm caused by the use of the products.
- Only adults should adjust, switch, move, or reposition the products. Ensure the products are used on a stable and flat surface. Place a mat or carpet under the products to prevent slipping, sliding, or floor damage, unless othewise specified.
- Do not place products near windows as it can be used as a step by the child and cause the child to fall out of the window.
- Do not place products near windows where cords from blinds or curtains could strangle a child.
- Be cautious when adjusting or setting up any product to ensure user safety.
- Limit the use to one person at a time and always prioritize safety.
- Avoid wearing loose clothes, and be cautious not to get trapped, stuck, or strangled by any part of the products or its strings and cords.
- Do not combine the products with other products unless they are intended to be used together.
- Do not throw the products or use them to harm others.

- Do not stand, run, walk, climb, or jump on the products unless otherwise specified.
- Move the products away after use to avoid tripping hazards.
- Keep small parts away from children to prevent choking hazards.
- Beware of potential head bump risks in tunnel-like setups.
- Avoid excessive rocking and always stop the rocking motion before getting off.
- Only open the zipper for washing or maintenance.
- Do not ingest or inhale the filling.
- Never use the products to apply pressure or smother anyone.
- The products should be used with caution, as a certain level of skills are required to avoid potential falls.
- Do not exceed the recommended weight limit. Going beyond it can lead to damage, breakage, and potential injury.
- If any discomfort or pain arises during use, stop immediately and consult with a medical professional if necessary.
- Do not use under the influence of alcohol, drugs, or any other substances.
- Clean the wooden products with a soft, clean cloth. Avoid chemicals and cleaners.
- Follow the washing and drying instructions on textile products.

Additional product-specific warnings

LUOTO and LUOTO II climbing arches:

- Use the climbing arch with protective felt pads or on a carpet for added protection and safety. These measures help prevent scratches on both the product and floor, while also cushioning against potential finger and toe injuries during play.
- When using the product as a rocker, ensure the KAURA II cushion is in place to protect children from placing their fingers underneath and prevent potential injuries during play.
- Use the wedges to prevent the rocking motion.

Suffocation hazard:

- The KAURA cushion is only intended to be used in the rocker position.
- The cushion must not be used for sleeping.
- The cushion is not to be used in a cot or bed.
- Keep the protective felt pads out of the reach of children.

Danger of physical injury and health injury:

- When using the product, there is a risk of falling between the rungs or off the climbing arch.
- When using the product as a rocker toy, there is a risk of crushing.

TUOHI slide ramp:

- Ensure the slide ramp is properly attached and avoid excessively steep angles.

AARNI, TAIMI and TAIMI MINI wall bars:

- Stay within comfort levels when climbing and always use padding below.
- Ensure secure wall attachment and avoid placing your head between the rungs.

ULPU and ULPU MINI gym rings:

- Always use both rings for hanging. Do not hang from the ropes.

ALAVA balance board:

- Use only with the designated HALLA roller and ensure safety to prevent falls.

HALLA massage roller:

- Always apply a comfortable amount of pressure and avoid using excessive force.

HAVU pull-up bar:

- Ensure your door frames are suitable for the product prior to use.
